

AMIR ABOU-EBEID

FULL-STACK DEVELOPER (Vue.js, React, Java, C# / .NET)

I am a passionate and detail-oriented Full-Stack Web Developer based in Austria with strong experience in modern JavaScript frameworks such as Vue.js and React. I bring expertise in both front-end and back-end development, with a solid foundation in TypeScript, Node.js, Docker, and database technologies like PostgreSQL and MongoDB. Recognized for writing clean code and creating thoughtful UI/UX designs, I am dedicated to building robust, scalable web applications. I thrive in both independent and collaborative environments and am always eager to take on new challenges and contribute to meaningful, innovative projects.
